

JUPITER® - P

Powder Gas/Neutral

For steels, nickel alloys, stainless, cast iron. To join, clad and seal.

FEATURES

- For thin or thick overlays
- Excellent machinability
- Excellent weldability
- Impact resistance
- Corrosion resistant
- Hardness 10-15 RC
- Nickel base
- Excellent hardface cushion
- High strength
- Low friction surface

CHARACTERISTICS

JUPITER-P has a wide range of applications and may be used universally with any spray torch. Deposits may be applied with precision as thin as .004 inches. The versatility of this product will be apparent when joining, cladding or sealing a wide range of metals.

For ultimate machinability with cast iron, remove all small projections that may tend to melt before the casting is up to the proper temperature.

Can be used in any compatible hot spray torch.
